SUMMARY

Technical consultant and software engineer pursuing an M.S. in Software Engineering with a specialty in AI Engineering. Experienced in enterprise software implementation, client engagement, and IT transformation across healthcare and nonprofit organizations. Led system rollouts, delivered technical trainings to cross-functional teams, and built full-stack applications from the ground up. Combines hands-on development skills with a consultative approach to solving business problems.

PROFESSIONAL EXPERIENCE

Port Authority of New York & New Jersey, Jersey City, NJ 05/2026 – 08/2026
Summer Intern, Technology Solutions

- Support agency-wide technology pilots, programs, and projects through end-to-end project and program coordination.
- Deliver technology training sessions to staff virtually and in person, translating complex tools into accessible learning experiences.
- Develop executive-level presentations for senior staff and leadership, synthesizing project data into clear, actionable narratives.
- Collect and analyze project data to inform program decisions and track initiative progress.

Oracle, New York, NY 04/2023 – 09/2023
Associate EHR Implementation Consultant

- Supported the implementation of Oracle Millennium EHR across multiple hospital systems, assisting with configuration and go-live readiness.
- Delivered technical guidance to clinical and IT staff during system rollout, helping streamline the onboarding process.
- Collaborated with senior consultants and client stakeholders during discovery sessions and system readiness activities.
- Contributed to configuration documentation for hospital system workflows, identifying gaps between clinical practice and system design.

Arundel Lodge Inc., Annapolis, MD 10/2025 – 05/2026
Assistant Clinic Director

- Coordinated clinical program scheduling, compliance documentation, and cross-departmental operations for a behavioral health organization.
- Maintained KPI dashboards, financial reporting, and regulatory compliance tracking across multiple departments.
- Streamlined administrative workflows including staff onboarding, internal communications, and records management.

United Way of New York City, New York, NY 05/2021 – 04/2023
Senior Associate, IT Project Assistant & Trainer (04/2022 – 04/2023)

- Spearheaded five IT adoption initiatives, delivering 20+ training workshops that improved employee software utilization by 40%.
- Managed an internal IT support ticketing queue, maintaining a two-hour average response time across 200+ monthly requests.
- Authored end-user documentation and quick-start guides that reduced repeat support queries by 35%.
- Evaluated vendor tools and provided technical recommendations to leadership for enterprise software decisions.

Associate Health Navigation Coordinator (05/2021 – 04/2022)

- Led technology onboarding at 25+ community health events, training over 100 users on digital health platforms.
- Managed program reporting, scheduling, and field communications across multiple project teams.
- Established feedback loops with end users to identify pain points and drive continuous process improvements.

NYC Health & Hospitals, Queens, NY 06/2020 – 05/2021
Navigation Associate

- Optimized clinical administrative workflows using Epic EMR, improving data entry accuracy and processing speed.
- Developed EMR training materials for new staff, reducing onboarding time by 25%.
- Provided administrative and technical support for COVID-19 public health response initiatives.

- Coordinated payer program documentation and improved workflow alignment across multiple clinic locations.
- Trained healthcare staff on proprietary EHR systems, decreasing IT support tickets by 20%.
- Ensured HIPAA compliance in all documentation and record management processes.

PROJECT HIGHLIGHTS

Document Q&A App (Python, Flask, Claude AI API)
• Built an AI-powered web application enabling users to upload business documents and ask questions in plain English, powered by Anthropic’s Claude API. Deployed on Render.

Business Dashboard (Python, Flask, Pandas, Matplotlib)
• Developed an interactive web dashboard visualizing annual revenue, expenses, and customer growth from CSV data, displaying key business metrics with dynamic charts.

File Integrity Monitor (Python, Hashlib)
• Built a cybersecurity tool using SHA-256 cryptographic hashing to detect unauthorized file changes, mirroring enterprise security monitoring concepts used in tools like Tripwire.

TECHNICAL SKILLS

Languages: Python, JavaScript, HTML, CSS, SQL
Frameworks & Tools: React, Node.js, Django, Angular, Express.js, Flask, Bootstrap, REST APIs, Git
Architecture & Design: Microservices, Software Design Patterns, Agile Methodologies
Platforms: macOS, Linux, Windows, AWS, Heroku
Professional: Enterprise Software Implementation, Stakeholder Engagement, Technical Training, EHR Systems (Epic, Oracle Millennium)

EDUCATION & CERTIFICATIONS

Western Governors University <i>Master of Science in Software Engineering, AI Engineering Specialization</i>	12/2026
Syracuse University, David B. Falk School of Human Dynamics, Syracuse, NY <i>Bachelor of Science in Public Health Study Abroad: Syracuse University Madrid, Spain (Spring 2018)</i>	05/2019
CareerFoundry, Germany <i>Professional Certificate in Full Stack Web Development (500+ hours: Python, SQL, JavaScript, React, Node.js)</i>	12/2024
